Personal Information

Name: Iftekhar Ibne Masud Rafi
Nationality: Bangladeshi
Email: iftekharrafi5@gmail.com
Phone: +86 16638168049

Profile

Highly motivated Software Engineering student with a strong blend of **technical expertise, leadership, and social impact engagement**. Passionate about applying **AI and smart technologies** to solve global challenges in **sustainability and urban development**. Proven ability to lead teams, adapt in multicultural environments, and contribute to meaningful initiatives.

Education

Bachelor of Software Engineering
Zhengzhou University, China
Expected Graduation: 2027

Higher Secondary Certificate (HSC) – Science
Savar Government College, Bangladesh

Certifications

- **How to Prevent E-Waste** – UNCC:Learn
- **Human Health and Climate Change** – UNCC:Learn / WHO

Key Project

Urban AI – Smart Sustainable City Initiative

Role: Co-Developer & UI Designer

- Developed an AI-based concept for **sustainable urban planning**
- Focused on **traffic optimization**, **green spaces**, and **smart infrastructure**
- Integrated **technology + environmental sustainability** for future-ready cities
- Demonstrates innovation aligned with global sustainability goals

Leadership Experience

Coordinator, Life and Discipline Committee

International Students' Association (ISA), Zhengzhou University

- Led coordination across a diverse international student community

- Organized programs enhancing discipline, engagement, and collaboration
- Promoted awareness of responsible and sustainable practices

Early Leadership & Activities

- **Patrol Leader**, Boys Scout (School Level)
  → Developed leadership, discipline, and teamwork through structured scouting activities
- **Team Leader**, School Football Team
  → Led the team in competitions, building teamwork, strategy, and resilience
- **Active Member**, Student Quality Control Circle (SQCC)
  → Participated in problem-solving and quality improvement initiatives

Technical Skills

- **Programming:** Java, Python, C, C++
- **Design:** Figma, UI/UX Design
- **Core Knowledge:** Software Development, Problem Solving, Basic AI

Soft Skills

- Leadership & Team Management
- Critical Thinking & Analytical Skills
- Communication & Cross-cultural Collaboration
- Adaptability & Innovation Mindset

Areas of Interest

- Smart Cities & Sustainable Urbanization
- Artificial Intelligence for Social Impact
- Climate Change & Environmental Innovation

Languages

- English – Fluent
- Bengali – Native
- Chinese – Basic (if applicable)

Career Vision

To become a leader in **AI-driven sustainable development**, building smart solutions that improve urban life globally, especially in developing countries, by integrating **technology, sustainability, and innovation**.
